#### **ATTENTION!**

**IBB students can take language courses of higher level of proficiency than the courses listed above. Such language courses *are taught in a target language*, i.e., French is taught in French, Italian is taught in Italian, Spanish in Spanish etc.**

## Optional Courses (oV and oV2 group)

One or even more optional courses are recommended to all IBB students, depending on their total number of registered credits – around 30 credits per semester is optimal. Students in the fifth, or higher, semester should check how many credits they still need to pass in each group. There are 3 types of optional courses:

1. oV courses
2. oV2 courses
3. Intensive courses (can belong to the group oV, oV2, or both – so, you can choose)

### **1. oV courses (Faculty level; in total you need to achieve 21 ECTS for oV)**

Optional courses offered at the Faculty level (oV), including language certificates (not all of them are necessarily available in the WS/SS – you need to check in InSIS - Course catalogue).

### **2. oV2 courses (University level; in total you need to achieve 15 ECTS for oV2)**

Within this group of optional courses (oV2) IBB students can register even a foreign language course (still **remember that classes will be most likely based on Czech**, so if you do not have a very good knowledge of the Czech language, do not take these language courses) and other courses offered by all faculties of the University. Not all of them are necessarily available in the WS /SS – you need to check in InSIS - Course catalogue.

### **3. oV and oV2 in a form of INTENSIVE COURSE**

Students can also choose an optional course in a form of an intensive course. The intensive courses are taught by visiting professors. The courses are usually held 3 days in a row. These intensive courses are, as any other courses, available for registration via InSIS during a registration period.

## Sport Course (cTVS)

**Please, note that sport courses are NOT compulsory within the IBB study plan.** However, IBB students can register sport courses offered by the University if interested (as optional courses). You will not receive credits for it. The list of all courses is available at the website [ctvs.vse.cz](http://ctvs.vse.cz) (section Degree students) or in InSIS/Study Plans.
